

Fire Fighter Exposure Tracking App

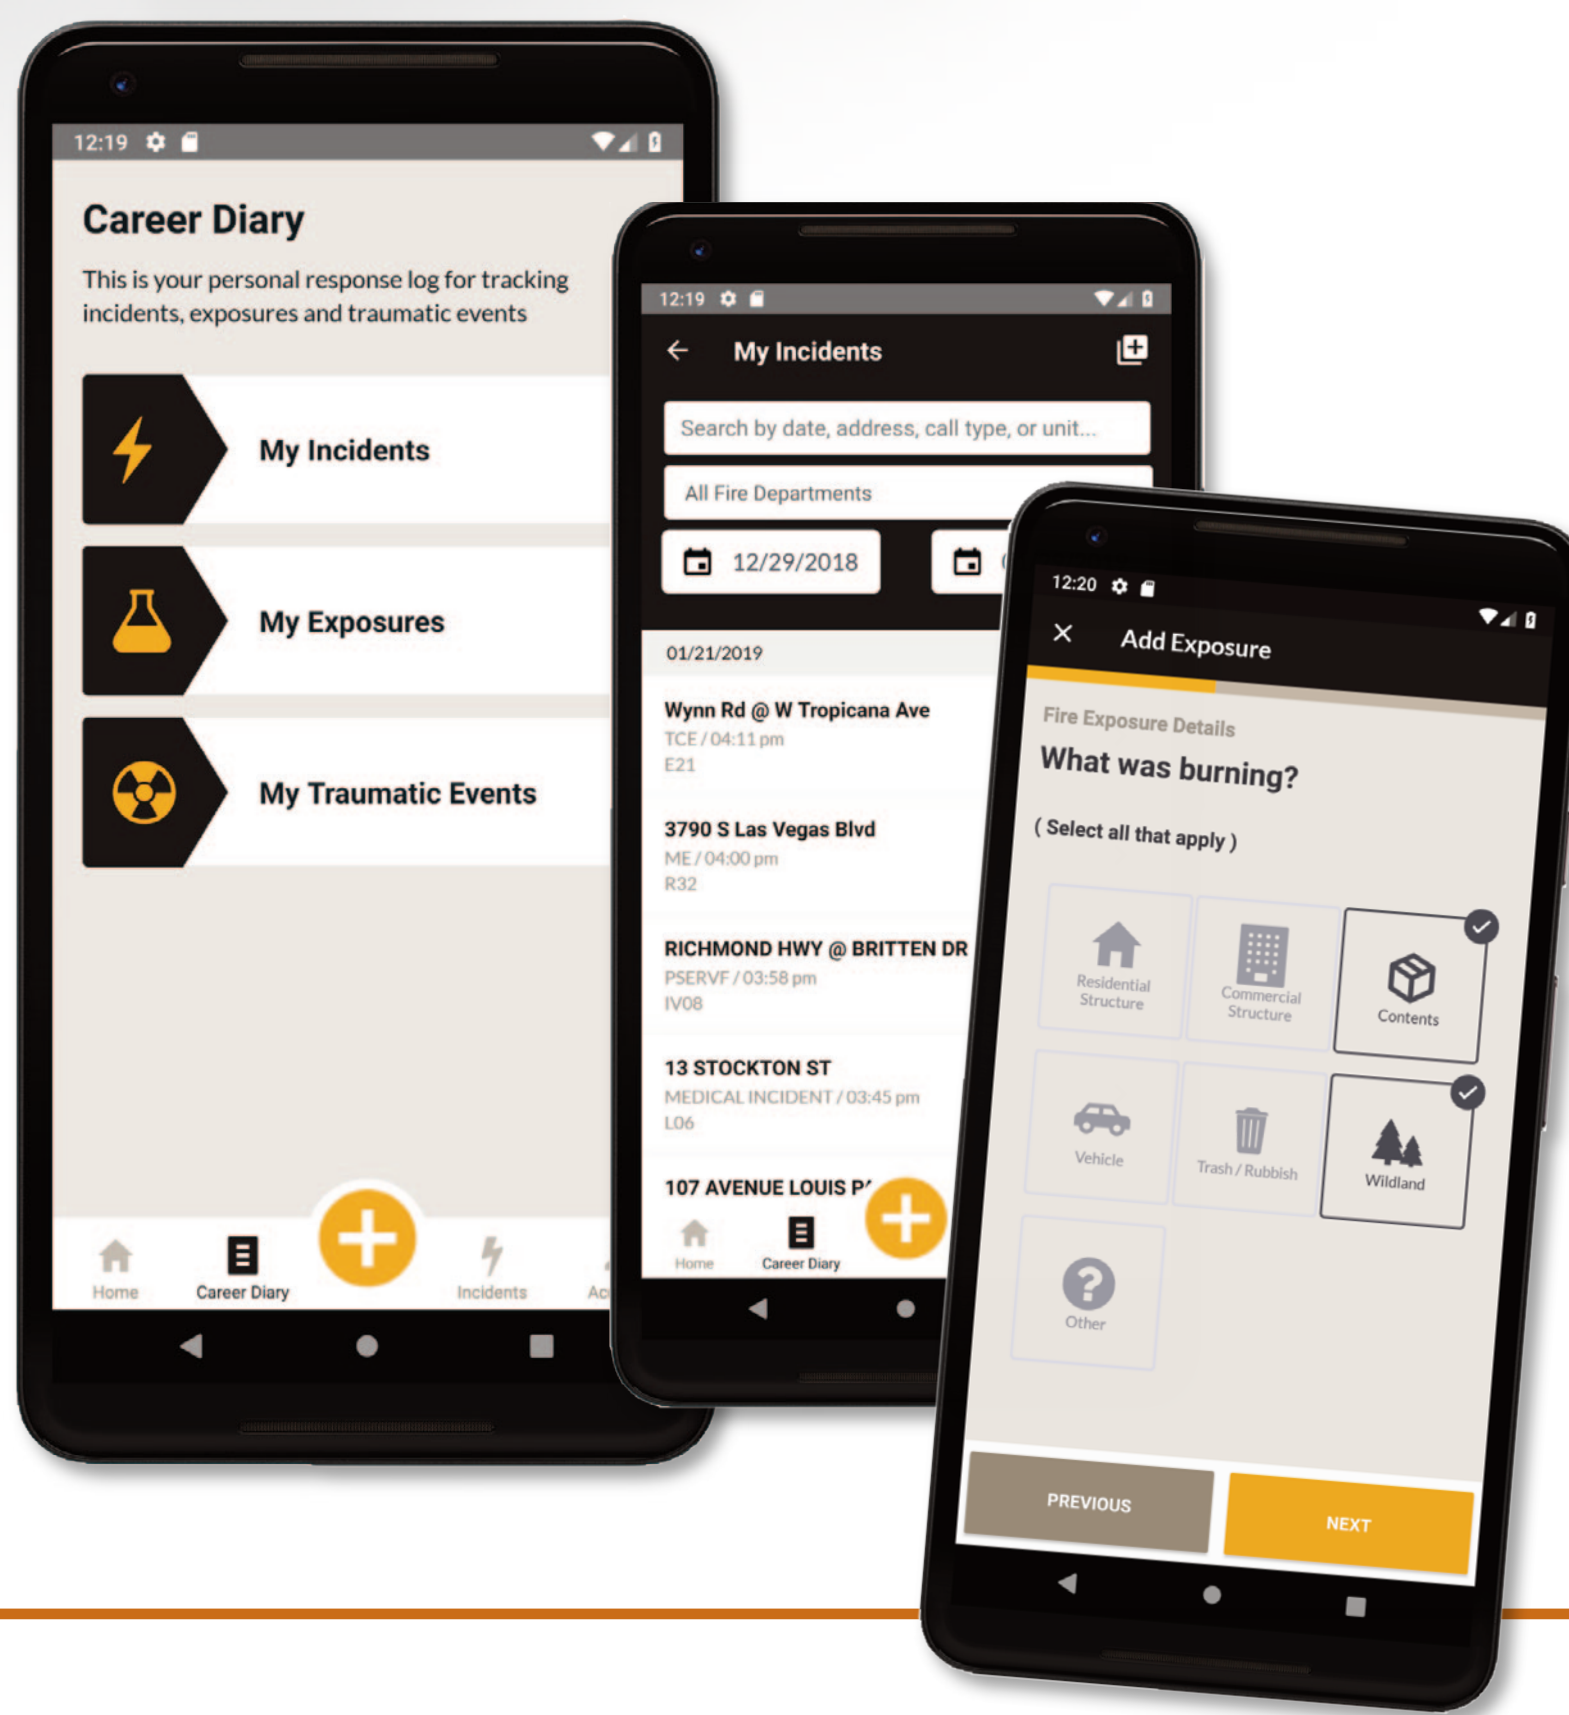

National Fire Operations Reporting System

www.i-psdi.org

Benefits of the Mobile Exposure Tracker:

- Document both physical and behavioral health exposures throughout your career
- Document exposures on-the-go from anywhere
- Your data stays with you even into retirement
- Track all of your incidents throughout your career with live NFORS CAD integrations in your department
- Be part of National Firefighter Cancer Registry studies by opting-in to share your exposure data with researchers
